

Integrating Strategies to Address Gender-based Violence and Engage Men and Boys to Advance Gender Equality through National Strategic Plans on HIV and AIDS

Country Action Plan – Template

- 1) Identification of priority country policy **strengths** (to be built on) and **priority gaps** (to fill) – informed by policy scan tool and the key concepts session
 - 2) Identification of key **interventions** to address these gaps (evidence, examples of good practice, examples of NSP ‘content’, tools, etc) – informed by the strategy sessions and the Gender Roadmap
- Myanmar NSP is recently developed for 2011-2015 and Gender equality is generally addressed in this NSP. Two main gaps are identified engaging men and boys in GBV and HIV in order to integrate current NSP as local organization’s and community responses by National NGO Network (HIV/AIDS) and Myanmar Positive Women Network.**

Key Strengths	Priority Gaps	Key intervention / entry point
NSP focus on specific target groups as the priority target groups such as MSM, Sex works, IDU and their clients. All strategies include increasing access to services and non-discrimination.	<ul style="list-style-type: none"> - Meaningful involvement of and leadership by women living with HIV. GBV is not mention specific in NSPP. Positive women leadership and involvement in NSP process and CCM is still limited as all representatives in CCM and National Strategy Group (HIV) are men. 	<ul style="list-style-type: none"> - Awareness raising workshops for Gender Equality among networks (Myanmar positive women network Initiative, National NGO Networks) in 2012 - Advocacy for meaningful involvement and leadership by women living with HIV
Reproductive right for women is clearly stated in PMTC in NSP .Antenatal care for couple is mentioned as key stagey for is also mentioned as men involvement in PMTCT.	<ul style="list-style-type: none"> -Engaging men and Boys for gender equity in treatment and Care economy (NSP did not mention engaging men and boys and transferred gender norms) 	<ul style="list-style-type: none"> - Assessment for engaging men and boys in treatment and care economy. - Awareness workshops on engaging men and boys in care/treatment ,the link between GBV and HIV - Awareness on Community mobilization intervention/awareness gender sensitive approach in treatment and care economy for local organizations and self-help groups through Networks.

- 3) Identification of an **advocacy process** and steps to push for the integration of identified interventions, using strategic entry points, partnerships, targets, need for further evidence, etc – informed by Gender Roadmap / compendium of resources
- 4) Identification of **technical support** needs for carrying out process
