

New:
STEPPING STONES PLUS

Stepping Stones PLUS is a new, 140-page supplement to the highly acclaimed *Stepping Stones** training manual, which was originally published in 1995. It consists of numerous new exercises and extra sessions to follow the completion of the original workshop.

The original manual focused mainly on the issues of gender and generation, but *Stepping Stones PLUS* also focuses on additional issues, including safe motherhood with discordant couples, male circumcision, the female condom, voluntary and confidential counselling and testing, and other related issues.

Stepping Stones PLUS is available only as a pdf file, either on CD or online. It can be ordered from TALC either online or by email. The contact details for TALC are: PO Box 49, St Albans, AL1 5TX, UK. Email: info@talcuk.org. Website: www.talcuk.org. Telephone: +44 (0) 1727 853869. Fax: +44 (0) 1727 846852.

Also available from TALC are the original *Stepping Stones* training manual and optional workshop video, and also *Stepping Stones Revisited* — a 27-minute film that takes us on a journey back to the village of Buwenda in southwest Uganda, where the original *Stepping Stones* workshop was conducted, and the video was filmed, in 1994.
