

WEBINAR: Community Research For Global Policy Reform and National Action

Translating Community Research Into Global Policy Reform For National Action: A Checklist For Community Engagement To Implement The WHO Consolidated Guideline On The Sexual And Reproductive Health And Rights Of Women Living With HIV

March 2018

A Checklist For Community Research For Global Policy Reform and National Action: Community Engagement To Implement The 2017 WHO Consolidated Guideline On The Sexual And Reproductive Health And Rights Of Women Living With HIV

Why this webinar? In April 2018 Salamander Trust launched a [generic Checklist](#), with financial support from the World Health Organisation (WHO)¹ and with wider advisory and collaborative support from global, regional and national networks of women living with HIV. The Checklist supports community advocacy to advance the full implementation of the 2017 WHO Consolidated [Guideline](#) on the SRHR of women living with HIV. Although access to treatment has increased, research shows that many women living with HIV struggle to access SRHR services and face violence, including stigma and discrimination, in their homes, communities and health care facilities. At the end of April an inception workshop took place in Nairobi, Kenya with women living with HIV to validate the Checklist process. This phase of the work was supported by UNAIDS.

Join this webinar to learn more about how to uphold the SRHR of women living with HIV: to ensure intrinsic rights; and to enable women living with HIV to access the healthcare they want.

Agenda

- Introduction and background to the Checklist
